

Solventum Series with Experts

Delivering Clinical Excellence in the Management of PIVCs: How a dedicated dressing can improve patient safety and optimise patient outcomes

Speaker

Matty McDonnell, RN MAdvPracNurs. A Clinical Nurse Consultant for the Vascular Access Surveillance Team and the PICC Insertion Service at the Princess Alexandra Hospital in Brisbane. In this capacity, he provides clinical expertise and staff education on vascular access and infection control, leads surveillance activities, conducts hospital-wide device audits, and contributes to the development and evaluation of vascular access guidelines and policies. Matty is currently completing his final year of the Masters of Nurse Practitioner program with UQ with the goal to endorse as Queensland's first Infectious Diseases NP.

Date: Wednesday, 9 July 2025

Time: 11 AM – 12 PM NZD

Venue: Microsoft Teams

Solventum is proud to collaborate with IVNNZ on the Solventum Series with Experts. You're invited to participate in an engaging and interactive virtual session that explores an innovative approach designed to enhance patient outcomes and improve healthcare system efficiency. The session will feature a presentation on the vital role of PIVC dressings in today's clinical settings, underscoring their significance in meeting current guidelines for the prevention of bloodstream infections (BSIs) while delivering a cost-effective solution to support patient safety.

Learning Objectives:

- ❖ Reflect on the 'Why' Behind Your Practice
- ❖ Examine the clinical evidence and guidelines supporting CHG Dressings
- ❖ Understand the importance of securement and dressing integrity in preventing complications
